THESE DISEASES.

If you have humors, pimples, boils, eruptions, it is because the system needs toning and purifying. Nothing gives such good health, smooth, clean skin and vigorous feeling as Simmons Liver Regulator, a simple vegetable compound. It stimulates the Liver, cleanses the eyes and skin of yellowness, improves digestion and makes the breath pure and sweet

I was greatly troubled with boils on my neck and body, and could find nothing to relieve me. Simmons Liver Regulator having been recommended to me I tried it with great success, and have had no return of them since.—JAS. M. GLASSETT Agent Phila & Southern Mail Steamship Co Philadelphia Pa

Having suffered a long time with indigestion and Constipation my health became broken and my complexion assumed a yellow tinge. After using Simmons Liver Regulator for a short time my health was restored and the freshness of my complexion.—Mrs M. BROOKS Clinton Ga

No single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The sense of smell of taste of sight of hearing the human voice the mind—one or more and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force and breaks up the most robust of constitutions. Ignored because but little understood by most physicians, impotently assailed by quacks and charlatans those suffering from it have little hope to be relieved of it this side of the grave. It is time then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once competent and trustworthy. The new and hitherto untried method adopted by Dr Sanford in the preparation of his RADICAL CURE has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds sneezing snuffling and obstructed breathing and rapidly removes the most oppressive symptoms clearing the head sweetening the breath restoring the senses of smell taste and hearing and neutralizing the constitutional tendency of the disease towards the lungs liver and kidneys

Fight Between Whites and Indians in Alaska.

FEARS OF CHINESE IMMIGRATION

Personal and General Notes from San Francisco—The Board of Trade Party Side-Tracked at Wallula.

A FIGHT IN ALASKA.

One White Man and Five Indians Killed and Several Wounded

PORT TOWNSEND May 29.—The steamer Ancon arrived to-day from Alaska and reports that a miner had arrived from the Yukon country who stated that the Indians and miners had engaged in a fight in the interior, in which one white man was killed and five wounded and five Indians killed and several wounded. There is no news as to the cause of the disturbance but it is supposed that the miners interfered with the wives of the Indians

AN OPENING DOOR.

Fears that British Columbia will be Flooded with Chinese

SAN FRANCISCO May 29.—An Opening Door is the heading of a short editorial in to-day's Call. Explanatory of the heading these words follow: Canada admits Chinese laborers on payment of $50 each. A line of steamships is about to be started between Chinese ports and British Columbia which will bid for Chinese patronage. The new line will make a fare of $5 less than the old and land them promptly without other expense. Now the United States government would have nothing to say about a commercial enterprise which might affect Canada only. If they want Chinese laborers it is right the should have them. But there may be some objection to a money making scheme which threatens to deluge the Pacific coast with Chinese laborers. Chinese landed in Vancouver will find little difficulty in crossing the line into Washington Territory. The people of British Columbia will not attempt to restrain them. In fact British Columbia is as anxious to keep clear of Chinese as are the Americans. Our northern neighbor seems in more ways than one inclined to be unfriendly. The seizure of American fishing vessels for purchasing bait and stores in Canadian ports was hardly a friendly act but it was insignificant in importance compared to the establishment of a line of steamships to facilitate immigration of a class of laborers, which both the United States and Canada regard as injurious to the best interests of either country."

CALIFORNIA.

PERSONAL AND GENERAL NOTES

SAN FRANCISCO May 29.—George W Sill formerly of Albany, is now in the real estate business at Watsonville a town about one hundred miles south of San Francisco

Miss A R Luse so well known in Oregon will spend the summer giving readings in different towns in California. Miss Luse has a warm spot in her heart for Oregon. An incident that occurred the other day tending to show this is worthy of mention. When the delegates to the Y M C A convention made their excursion a week or so ago to Monterey she was one of the party. At one of the stations at which a short stop was made the delegates were handed a plate of strawberries each by two young men of the town. Who would have thought it, just like California hospitality burst from the lips of some enthusiastic woman. Ah yes quickly remarked Miss Luse, but in this case the Californians happen to be Oregonians. And this was a fact so far at least as the leading spirit of the hospitable act was concerned

J W G Coffron, who left Portland about a year ago for this city returned a few days since from Honolulu whither he had gone on a business trip in the interests of the Hartford Insurance Company of which he is one of the general managers here. Business is prosperous with him

The order of exercises at the grand army plat at the I O O F cemetery will be firing minute guns by United States artillery dirge by the band prayer by the department chaplain poem by comrade A L Rockwell remarks by department commander, Edward S Salomon music remarks by comrade O O Howard strewing graves with flowers, G A R salute by comrades under arms

The order of exercises at Metropolitan hall in the evening is Organ, President Garfield's Funeral March prayer by the department chaplain remarks by the president of the day, department commander of the G A R Comrade Edward S Solomon organ selections song by James G Clark recitation by Mrs Louise Humphrey Smith air Star Spangled Banner by Miss E Beresford Joy, daughter of Comrade W H Joy poem recited by Fred Emerson Brooks Battle Hymn of the Republic with organ accompaniment Oration by Comrade Henry C, Dibble Commander Lincoln Post No 1 America organ and chorus benediction by Chaplain E R Dille Maj R H Hendershot, the drummer boy of Rappahannock, will also render General Logan's favorite march on the drum presented to him by Horace Greeley for bravery on the battle field of Fredericksburg in 1862

TARANTULA FIGHTING

SAN FRANCISCO, May 29.—A company of young gentlemen headed by Alexander Sharon nephew of the dead senator were down at Paso Robles Springs last week and among their pastimes they had a peculiar adventure. Going out for a walk one day they happened to come to a place not far from town which was filled for quite a distance with holes about one inch in circumference. The holes had a covering on top which was webbed by tarantula spiders. Knowing that these insects are poisonous and that their sting means death or a close approach to it the young gentlemen were cautious. The brought some water and poured it down one of the holes. G T Howard one of the gentlemen present held his cane at the edge of the hole when about fifteen of the dangerous insects climbed upon it. He shook them off and they immediately began to fight with each other until they were all dead save one. Tarantula fighting is said to be quite a sport in Tulare county and other places where they abound

RATES TO THE G A R ENCAMPMENT

SAN FRANCISCO May 29.—The Atlantic & Pacific is the first line to announce rates to the Grand Army encampment at St. Louis. Round trip first class tickets will be sold at $67 50 the rate being open to the public generally as well as to delegates. They will be sold about September 20 and will be good for passage to November 30. Upon payment of $6 20 additional a limit of sixty days will be allowed granting visitors to the encampment an opportunity to make a run East after seeing the sights at St. Louis

THE NEWSPAPER WAR

SAN FRANCISCO May 29.—In accordance with previous announcements, the *Chronicle* and the *Examiner* again ran special trains to-day to carry their Sunday edition to their out of town subscribers. Both papers ran special trains to Santa Cruz while the *Examiner* dispatched one also to Sacramento and one to Santa Rosa. The trains to Santa Cruz cost the *Chronicle* and the *Examiner* $ 0 a day each. The latter's train to Sacramento also cost $200 while the one to Santa Rosa cost $1

RICH STRIKE ON BEAR RIVER

VICTORIA, May [illegible].—The latest news from Bear river west coast of Vancouver island has caused considerable excitement in mining circles. Over 100 Chinese are taking out big pay on the creek. A number of whites have gone in for the purpose of thoroughly testing the district. It is reported that quartz has been struck samples of which assayed into the thousands. The C P Navigation Company advertise a steamer for the new strike on the 11th of June

An article appeared in the *Evening Times* of Victoria a short time ago making grave charges and insinuations against Deputy Attorney General Irving and Hon Robson provincial secretary in regard to the administration of justice in a rape case on trial. The article is of such a character that prosecution has been entered by the government for criminal libel against J C McIlmoyl manager of the paper. The same paper has several other libel suits entered and threatened

EARTHQUAKE IN MEXICO

One of the Severest Shocks Experienced in Years

CITY OF MEXICO via Galveston May [illegible].—At [illegible] minutes to 3 this morning there was felt here a violent shake up of the earth [illegible] sort of lifting [illegible] which lasted five seconds. Next the same [illegible] by a slow rear and accompanied by a stiff breeze a violent oscillation of the earth from east to west which awoke nearly everyone. Lasting as it did thirty nine seconds houses swayed as if they were ships at sea and persons arising from their beds were in many cases thrown with force to the floor. Bells were ringing in hotels and everywhere doors were forced open. Then came still another oscillation of much violence, proceeding from north to south. During this shock crockery was thrown down and pictures demolished in several houses. Thousands of persons dressed themselves and did not go to bed again

Reports received to-day by Governor Ceballos of the federal district do not show any fatalities as a result of the earthquake. The residents of suburban towns report about the same sensations as were felt by the inhabitants of the metropolis. At the school of mines Secretary Ugalde reports that the seismic instruments showed that a heavy shock had taken place. These instruments are self registering and prove that the shock of this morning was a severe one. At the office of Gov Ceballos it is reported that the shock was much more severe than that of 1882

THE NOGALES AFFAIR.

A Reply to the Request for Clemency in the Case of the Condemned Officers

ST LOUIS May 30.—A special telegram from Mexico to the *Globe Democrat* says Secretary of Foreign Affairs Mariscala has addressed a reply to a request made by the United States government that the death sentence pronounced against Col Arviza and his companions on account of the part they took in the recent violation of American territory at Nogales be commuted. He states that the matter has been reported to the president. He also states, by direction of the president that the humane sentiments of the United States officials are duly appreciated and that they will be borne in mind in case the sentence pronounced against the Nogales offenders should be confirmed. Mr Bayard's appeal in favor of the condemned men has been met by the Mexican government in a friendly spirit. The desire of the present administration of Mexico is manifestly to cultivate the most cordial relations with the American government and people and all suggestions and requests coming from the state department at Washington, if made in a friendly spirit have invariably been received and considered in the most amicable manner. Arviza and companions will hardly be executed

Col Lamont also accompanied by another guide followed in another boat. Both boats returned three hours later. The president and his secretary found the wind unfavorable and did not try very hard to catch anything. At all events they did not get any fish. Another trip on the lake was made in the afternoon with no better results

The party took breakfast at 10 o'clock this morning, the president and his secretary appearing in the camping costumes they wore Saturday. The ladies went to a little chapel not far from the hotel and in the absence of a clergyman held a little singing service for an hour. The president expects to have some good sport to-morrow

THE WHEAT CROP

A Good Condition Reported from Every State but Kansas

CHICAGO May 29.—This week's *Farmer's Review* will say: Our reports this week indicate that local rains throughout the Western states have more or less broken up the drought. An improved condition of affairs in relation to the winter wheat crop is noticeable in Indiana and Ohio. Twenty three counties in Illinois report the average condition of winter wheat at 83 per cent. Fourteen Indiana counties report an average condition in winter wheat of 87 per cent. Eleven Ohio counties report an average condition above that of last week. Prospects for the crops are much better. The condition of winter wheat is placed at 88 per cent. in seven Michigan counties reporting. The condition of winter wheat in Missouri is promising. Ten counties in Kansas report the condition of winter wheat at 68 per cent. of average. Complaints are numerous of drought and bugs. Hail killed most of the crop in Clay county May 22. The condition of spring wheat in Minnesota is reported as good. Iowa promises to have a good crop of spring wheat. Seven Nebraska counties report the condition of spring wheat in that state at an average of 91 per cent

THE WEEK'S WEATHER

Crop Bulletin Issued by the Chief Signal Officer.

WASHINGTON May 29.—The following is the weather crop bulletin issued by the signal office to-day for the week ending May 28

Temperature—During the week ending May 28 the weather has been slightly warmer than usual in the Mississippi valley and thence westward to the Pacific coast and from Southern New England westward over New York Pennsylvania and Ohio. The week has been slightly cooler than usual in Wisconsin, Minnesota Virginia and the South Atlantic States but in all agricultural districts east of the Rocky mountains the average temperature for the week differs slightly from normal. In Oregon Washington Territory and northern California the excess of temperature ranges from 25 deg to 70 deg. The season from January 1 to May 28 has been slightly warmer than usual in the grain and tobacco regions while the average daily excess in the cotton region has been from 1 to 2 deg to 2 degs

During the week the rainfall has been slightly in excess of the average in the cotton region from Texas eastward to Georgia and generally in New England New York Pennsylvania and Virginia

Frequent showers occurred in the corn and wheat regions where the total rainfall for the week although well distributed was slightly below normal. Kansas has been favored by rainfalls in excess of the normal especially in the western portions. Owing to the favorable distribution of the rainfall this season a deficiency of ten to fifteen inches appears as yet uninjurious in the cotton region. Throughout the entire agricultural districts the weather has proved especially favorable for growing crops and reports Sunday morning May 29 show that favorable conditions of rainfall and temperature yet continue except in Michigan Illinois and Southern Minnesota, where needed showers are to-day predicted

THE ABOLITION OF PASSES

Railroad Men Sighing for the Good Old Days and Customs.

CHICAGO May 29.—A *Times* reporter who has been talking with the railway men says. There are some of the railway managers hereabout who say that the abolition of passes has had no appreciable effect on the passenger earnings. There were but few passes given even when the system was abused most. In cutting off passes the railroads have deprived themselves of a certain element that in former times was worth a good many dollars in indirect ways to railroad companies

An observing manager while declining to specify an instance asserted to a reporter that he could put his finger on one transaction that cost his road $18 000 which was due to the withdrawal of the pass privilege and he had no doubt that other Chicago roads had had a like experience

A certain general passenger agent discussing the matter gave it as his experience that his road had lost largely instead of gaining by the abolition of passes. There is a general drift of opinion among railroad officials to the same effect and the old fallacy that passes were an intolerable abuse and the practice productive of [illegible] old [illegible] has been completely exploded by the results of the experiment in sweeping them away

THE SATURDAY HALF HOLIDAY

NEW YORK May 29.—The Saturday half holiday was generally observed down town yesterday. All of the exchanges closed at noon as far as the transaction of business was concerned. Produce quotations from Chicago were stopped at noon and thus effectually checked all disposition to continue trading. A number of insurance companies were added to those which started a week ago to observe the half holiday and it is generally supposed that the banks will soon fall in line. Some of them refused after 12 o'clock to pay any checks drawn to order saying that they were legally advised to pursue that course. The same checks afterward indorsed by the makers pay the bearer were paid without question. Retail stores up town opened as usual and the customary amount of shopping was done

THE CHICAGO WHEAT MARKET

CHICAGO May 29.—The controlling power of the large holders of wheat was again demonstrated during the past week. Trading was spasmodic at times ruling active and excited and at others quiet. Now and then it ruled very weak and then again quite strong. Opinions changed frequently. One day an impression prevailed that the large or combined holders were selling out and another that they were adding to their holdings. Various rumors were mentioned one to the effect that parties interested in holding wheat had received financial aid to pay for wheat to be delivered June 1. It was rumored that parties were endeavoring to negotiate with city banks for a sufficient loan but found it difficult to do so. Nothing definite could be ascertained the dealings and intentions of interested parties being mysterious

OREGON MAIL SERVICE CHANGE.

WASHINGTON May 29.—Star service changes have been ordered as follows Ash and to Linkville from June 6 188 change of service so as to omit Ashland and Soda Springs and begin at Willow Creek California, embracing the offices of Bogus and Beswick next after Willow creek reducing the distance seven miles. This change is the result of long and continued effort. It has probably been brought about mostly by the influence of contractors carrying mail between Ashland and Linkville. Many residents of Southeastern Oregon however have petitioned for the change on the ground that with the completion of the California & Oregon railroad to the Klamath river their commercial relations for most part would thence forth be with California and San Francisco. letters [illegible] be more quickly received by a stage [illegible] the Klamath river into Oregon than by the route from Ashland to Linkville. A FINANCIAL FAILURE

WASHINGTON May 29.—The national drill, which ended yesterday is a disastrous financial failure. Its promoters are about $35 000 out of pocket. Rain has fallen every day since the exhibition began and the interstate commerce law kept away many visitors who could not secure reduced rates of fare. There is probably enough money on hand to pay the prizes which aggregate $20,000. Chief interest centers in the competition for infantry drill the first prize for which is $5,000. OMAHA May 29.—For some weeks past the *Northwestern* and the Loup City *Times* both published at Loup City terminus of the Union Pacific branch in this state have been engaged in a wordy warfare. B. L. Richardson has been editor of the *Northwestern* and O B Willard of the *Times*. The latter seemingly got the better of the dispute until yesterday when Richardson's paper contained a lyric poem reflecting on the character of Mrs Willard before her marriage to the editor of the *Times*. The article incensed Willard and he threatened to whip Richardson on sight. They met on the street yesterday afternoon and after the exchange of a few words Willard showed signs of putting his threats into execution when Richardson drew his revolver and shot Willard through the heart. The county sheriff at once arrested Richardson and started for St. Paul Nebraska, some forty miles distant where there is a strong jail.

A MEXICAN WOMAN MURDERED

ST LOUIS, May 29.—A special from Del Rio Texas says. The Mexican portion of the city was startled by cries of murder, and as a citizen broke open the door of the room whence the calls came the body of Felipa Garcia fell into his arms. The woman was stabbed three times with a large dagger, and any of the wounds would have proved fatal. She lived in a house with her husband, Juan Garcia and an aged couple. The latter testified that in the night they were awakened by a scuffle and the sound of a man's voice swearing. Then they heard Felipa's cries. Since the killing Juan Garcia has disappeared.

OUR SOLDIER DEAD.

Memorial Day, with its dirges, its flowers and the tender speech that make up the annual services that are held in honor of our soldier dead, again makes its appeal to the thoughtful sensibilities of every good citizen. We recall familiar with Scott's graphic description of "Old Mortality" piously wandering from church yard to church yard, scraping out the tombstones of the old Scottish Covenanters who had fallen in the fight at Bothwell Brigg or had been shot to death in cold blood by cruel Claverhouse and restoring with his chisel the weather-worn and defaced [illegible] on the neglected monuments of the martyrs of his church. Our work to-day is something akin in spirit to that of the old Scotch enthusiast; our business is to see that ever the storms of winter mar the moving story of these dead soldiers' modest gravestones, [illegible] of what they did shall be to our children's children, like love, an old old story, yet ever new, thus feeding their imagination with the sentiment that saves a state when all debate is closed and the war of written and spoken words dies away before the realist speech of cannon.

Why, it may be asked, when the din of material conflict has died away, do we now continue to dwell on the story of these dead men's soldiership? Not to stir the dogma urges—least of all cynical old age—but as part of the education of the growing generation that saw not the war and yet may thus be infected with the nobility of its spirit. Our growing children when, all over the country, they stand beside these graves, shall learn that their mouldering tenants were not governors, nor congressmen, nor great lawyers, nor millionaires, but were among those who, in their days of youth and beauty, when the blood leaps in the veins and life never looks so lovely or appeals so strongly, when the nation needed not white livered lawyers, like Buchanan and Jerry Black, but gallant hearts; when not merely riches but unselfish valor were the most precious sinews of war, these humble men were among those who gave the country all they had to give, gave her their lives. When the nation was steaming with fervent heat of civil war, they rose above governors and judges and congressmen and all the emoluments and prospective prizes of peace, and put themselves calmly into the bloody whirlpool of war to conquer a peace. The heroic lives of some of them still fertilize the South while others brought back their bodies so fearfully shattered by exposure that they knew the shadow of early death was over them the day they were mustered out. These men are but a type of thousands; their example and their memory is all we have to oppose to the miasma of petty politics, to the foul smokes of the roaring march of trade and the angry battle of individual ambitions and cooling enmities. We believe the nation should so solemnly honor and preserve all the traditions of this great trial time, that when the gathering shadows of coming death begin to reveal themselves to the last survivor of the great war for the Union it will something assuage his bitterness of parting to have this proud and sweet memory, viz that he should not leave a few behind who would always hold him in deep reverence because he had fought to save the state when the honor of the salvation was only represented by the sacrifice.

It is epitaph enough for the tallest man to be able to have his friends write upon his tomb: "He was one of those upon whom the Union leaned for support from Bull Run to Appomattox; he was one of the conspicuous stones in that wall of gallant hearts that stood between the bayonets of rebellion and the life of the nation."

This year the long pealing dirges of Memorial Day will sound to all our ears as though touched with more than even their wonted note of woe, for our little army of veterans shows gaps that are tearful memories; the little army dwindles, but the dead or the roll of the dead on the field of honor is always growing and never dies. The dead of the war have their imperishable monument in the work they died to achieve. The coral insect toils till its slowly accumulating pile rises a reef above the water and then dies. Moses, who only came in sight of the promised land, was a grander character than any who entered into its joys, and so the workers who died with their harness on without recognition are immortal because of the eternal nobility of their work. On this coast the army dead, as a rule, do not lie in the land from which they date their birth, but at the east it is within the possibilities of the subtle and various chemistry of nature that some of the leaves and flowers which deck the Union graves, some of the kindly trees which shelter them may have drawn a portion of their blood and fibre from the sublimated dust of the men of 1776 whose disseminated ashes are raised again with aspiring branches of the sky pointing trees or etherialized in the fragrant blossoms of the lovely flowers.

INDIAN WHEAT.

To what extent the growth of wheat may be promoted in India and how far its exportation to England may diminish the exportation from the United States to that market, are questions of interest to our people. It is shown that only a few years ago the supply from India was less than a tenth of that from the United States, but for several years it has been about one fourth. In the six years ending with 1881 the annual average export of Indian wheat to Great Britain was only 6,000,000 bushels, but since then there has been a very rapid increase, and the following figures, in which flour is reduced to wheat, show the amount of British imports from the two sources:

	[illegible]	188[illegible]
United States	[illegible]	915,000 [illegible]
India	[illegible]	880,000

As [illegible] system of India is extended [illegible] wheat from [illegible] The [illegible] country [illegible] wheat lands of that [illegible] have been [illegible]. It is estimated that the area of wheat lands in India is about two thirds the area of the like lands in the United States, and the announcement is made that the government of India has adopted a scheme for extension of the roads, so as to bring large additional sections of wheat country into communication with the seaboard. This plan includes the speedy construction of 7,000 miles of new road, to cost $180,000,000, and English capital, it is asserted, is to be turned in this direction, instead of being invested in railroads in the United States. These are facts of importance to our people, since the wheat market of the future cannot but be affected by them.

TAXING EVIDENCES OF DEBT.

The Hartford (Conn.) *Courant*, referring to a proposition before the legislature of that state to exempt the evidences of debt from taxation, sensibly remarks:

> Everybody knows that the taxation of notes, bonds and cash on hand is practically a failure and that it cannot be enforced. The law will not accomplish it and tearing the hair over the fact does not bring a cent into the treasury. The fact stands. The reason is that the tax is not right and being wrong in principle and easily evaded in fact it can never be enforced. A note or a bond is not property. That is the secret of all the trouble. It grows out of a misapprehension of things. The note of a pauper is worthless. Mortgages on a house in excess of its value are valueless. Back of a note or a mortgage there must be property.

The *Independent* (New York) reproduces the above, with the sound remark that the whole system of taxing the evidences of debt is practically a failure because wrong in principle, and adds:

> A note, or a bond, or a mortgage, is in itself considered simply a piece of paper, having no value except as it contains a contract between two parties by which the one promises to make a certain payment to the other. That which is to be paid is in fact either directly or indirectly, some species of tangible property. The note, bond or mortgage is simply a legal claim to such payment, and acts as the instrument through which the right may be asserted and enforced, and for this purpose is exceedingly convenient in the business transactions of society. But if there be no property behind the instrument with which to make the payment, then the instrument is worthless. If there be such property, then that property is the legitimate subject of taxation, and if the instrument be also taxed, then we have double taxation—one tax being levied on the instrument which asserts the obligation of payment.
>
> The state might just as well tax the *verbal* contracts of men as to tax their *written* contracts. The fact that they are written does not make them property any more than if they were merely verbal. The fact, too, that such taxation is practically a failure is an additional reason why that which is wrong in principle should be abandoned altogether. There is no use in attempting to do what will not be done.

LIVELY DEMAND FOR POLICEMEN

A RUSH OF CUSTOMERS AT THE CITY JAIL LAST NIGHT

Business has been rather dull around the police office of late but there was a spurt last evening for a while. A reporter who had dropped in was [illegible] and at length began to think that the boys had put up a job on him and were playing a variety theater police station racket on him. First came in John Fish, a scavenger, who presented a dilapidated appearance. He said he had been out at a rifle shooting range near the south city limits and had got into a row with one George Hoffman who had torn off his clothes and threatened to kill him. Mr Fish said he did not want to die that way, and he did want to know what was to be done in the case. He was advised to call around in the morning and get a warrant for Hoffman's arrest.

He had hardly gone when policeman [illegible] brought in Harry Hickman who was charged with disorderly conduct at the Gambrinus garden. Mr Hickman explained that this was the first time he had been arrested. It was also the first time he had visited the Gambrinus gardens. He had taken a young woman out to dance with [illegible] character he was not acquainted and [illegible] had been jostled off the floor. Of course he took up the cudgels for the girl and there was a rumpus and Mr Hickman was run in. The back of his coat was covered with dirt which his friends brushed off after his bail had been deposited and he took his departure.

Then in rushed a blubbering boy who said some fellows were mauling his brother around down by the bill poster's office. He began a story about a pair of bones which had caused the trouble but was interrupted by three excited men who rushed in and taking the reporter for the boss, a very excusable mistake, shouted in chorus that they wanted a tramp arrested. "Bring him in," said the reporter with characteristic *sang froid*, "and we will arrest him." But they explained that the tramp had struck them for money and when they refused had struck them with his fists and bringing him in was just what they did not want to do.

Just then in rushed a big boy who proved to be the brother of the small one and the one who had been mauled. He yelled: "Can I have a warrant for [illegible] tramp?" He was going on to say that a lot of vags had set on him down at the bill poster's office and maltreated him, and then his grief overcame his indignation and he blubbered a while. He was advised to come in the morning and get a warrant. He said it was a bad place down at the bill poster's office, where Squinty and a lot of worthless fellows played cards and did other bad things. "Why did you go to such a place?" inquired the reporter, and then he began a yarn about those confounded bones. Just then policeman Collins came up with two horses which he said he had arrested for trying to cross the F street ferry without paying their fare, and the reporter thinking he had enough of police business for one sitting beat a retreat.

THE CITY PARK.

IMPROVEMENTS SINCE LAST YEAR—BEAUTIFUL FLOWER BED TO BE LAID OUT.

A large number of people visited the City park yesterday and a very pleasant place it is to loiter away a few hours. The grass is at its best and the ground among the shrubbery is covered with wild flowers of many varieties. The country on the east side presents a beautiful appearance and the distant Cascades with their snow peaks and many patches of snow still lying below the snow line form a picture which one is never tired of gazing at. There are settees in the shade, swings for those who like, a place where refreshments can be had and the spring in the ravine furnishes fresh cold water.

The flowers are backward, owing to the lateness of the spring, but the park keeper, Mr Myers, has laid out one bed of foliage plants set out, a hemp plant in the center, castor beans, striped corn and salvias in circles around it. Mr Myers also has some [illegible] plants, coleus, geraniums and other plants of many hues which he has raised in boxes ready to set out in a ribbon bed as soon as possible. It will be a grand affair when it arrives at perfection.

A stout rustic fence has been built around an acre or more including part of a deep canyon, in which the deer presented to the park by Mr House are confined. It is a fine place for deer and Mr Myers will be pleased to receive young deer or elk or any such animals from any one who wishes to make the city a present of them. He intends to place a colony of English rabbits in this inclosure and they will amuse children visiting the park with their gambols. The park has been greatly improved by the work expended upon it, and the council should allow Mr Myers two or three men through the summer to keep up the work of improvement.

WATER MAINS

SLIGHT ACCIDENT TO THE BIG PIPE ON THE MACADAM ROAD—GETTING RID OF MUD

People residing at the south end noticed Saturday night, that there was a scarcity of water and no pressure on the mains. Workmen were engaged in tapping the wrought iron main along the White house road to supply the tanks put up for sprinkling the road. In trying to put in one of the corporation faucets the drilling machine, owing to the unusual size of the pipe and the smallness of the man hole in which it was working slipped and the connection was not made. The water flew out with such force that it was necessary to stop the pumps and to shut off the water at the reservoir on Lincoln street to prevent a back pressure and then the plumber working in the manhole up to his chin in water was able to screw the faucet in. Engineer Smith has been opposed to tapping the big main but there seemed to be no way of avoiding it. Any accident to the connections put in this main is likely to cause much trouble.

The blow offs put in the Front street main at Morrison and Washington streets work like a charm. The mud has been blown out of the main and there is no further trouble on account of service pipes being stopped. There has been much trouble on this account and people have had to have the water blown back out of the main service pipes with an air pump in order to clean out the sand and mud. A great amount of water is being wasted during the hot weather, and the pumps are kept busy. When Bull Run is brought in probably meters will come into general use.

Y M C A VISITORS

The returned delegates from the San Francisco International Convention who arrived here Saturday morning overland were very thoroughly used yesterday by our city pastors.

The Sunday evening meeting of the association was conducted by Mr George A Warburton, railroad secretary of New York city and though the attendance was not as large as usual owing to the tabernacle meeting being held at the same time a very profitable time was enjoyed. Mr David McConaughy Jr general secretary of the Philadelphia association conducted the morning bible study for young men in the association's parlor. The lesson consisted of a comprehensive survey of the books of the old and new testaments showing the divine scheme running through them, likened to the scarlet thread found in all cordage belonging to the [illegible]. Mr McConaughy is one of the rising bible students of to day and has already published several books which are extensively [illegible]. At 4 o'clock [illegible] meeting [illegible] Mr Wm Wadham [illegible] Mr A J Hall [illegible] prayer and the male [illegible] some of the [illegible] secretary [illegible] spoke [illegible] usefulness [illegible] Mr R [illegible] Morse who [illegible] the general [illegible] local committee [illegible] large measure the development [illegible] is due made a warm appeal for personal and financial support from a business standpoint giving an account of the work as it exists to day throughout the land and the cordial support it is receiving from the conservative business men. Mr Morse was followed by Mr E F See general secretary of Brooklyn New York, a young man of great promise and with special gifts as a public speaker. Mr See gave several convincing reasons why the community should give its support to the association. Rev Herrick Johnson D D of Chicago was then introduced. He wished to test the audience and asked all who had regularly contributed to the support of the association to do so. To this several responded. Then again how many had given direct personal assistance, and last how many made the association an object of prayer. These questions were answered and the doctor hoped there would be a decided increase all around. An eloquent forcible endorsement of the work of the association was followed by an appeal for aid in the local work and a wish that opportunity might be afforded him to speak to Portland's wealthy citizens upon the importance of erecting a building adapted to the work of the association. The clear ringing testimony of this eminent divine will long be remembered by those privileged to hear. The meeting closed with prayer and benediction by Rev Geo A Hall of New York. The party leave for the Yellowstone to day.

PIONEER MEETING

The Walla Walla Pioneer Association will hold its first reunion at the county courthouse in the city of Walla Walla, Friday, June 10, 1887, at 10 o'clock A M. The orator of the occasion will be Hon. Nineveh Ford. Each and every member of the association is earnestly requested to be present, and an invitation to attend is cordially extended to the general public. The jurisdiction of the association embraces all that territory in Washington, Oregon and Idaho lying east of the Cascade mountains, and persons who settled in the country included in these boundary lines prior to January 1, 1863, are eligible to membership. At this meeting an opportunity will be given those who possess the necessary qualifications to unite with the association.

HENRY KELLING, Secretary.

PROHIBITION vs HIGH LICENSE

Some Popular Fallacies Combatted by a Prominent Divine

The Rev Herrick Johnson of Chicago one of the most able leaders in the third party movement spoke to a large audience at the Tabernacle Saturday evening. He is a very impressive speaker appealing always to the reason of his hearers and never resorting to rhetoric alone to make a point. He discussed the prohibition question purely in its effect on society and referred only once or twice to its moral side. The address was devoted entirely to combating the fallacies of high license advocates as presented in the discussion of temperance matters.

The first fallacy to which Mr Johnson referred was the personal liberty and sumptuary legislation fallacy. Those opposed to prohibition argue that prohibition is an assault upon and an invasion of personal right. So eminent a man as Gov George Hoadly of Ohio so expressed himself in his last message to the legislature of his state. Answering this fallacy Mr Johnson argued that society is [illegible] on mutual surrender of personal rights. Robinson Crusoe alone on the island was [illegible] but when the man Friday came it was necessary that Crusoe should respect certain rights [illegible] Friday's else they could not have lived together [illegible]. The closing of saloons will infringe [illegible] some one's personal liberty but the [illegible] justifies such closing. Suppose a tiger should break loose from a menagerie and threaten the [illegible] people on the street. A man in order to kill the tiger breaks a plate glass window. The man who owns the window suffers but he has no action against the man who fired the shot. Society decided that the tiger be killed. The end [illegible] was the tiger. The object of prohibitionists is the saloon. All good citizens ought to be willing to surrender a small part of their personal rights for the public good.

The second fallacy is the not a [illegible] fallacy. The question was not whether drink [illegible] or the manufacture and sale of intoxicating liquors is a [illegible]. It is not a question of right or wrong [illegible] question of public policy [illegible]. In Chicago it is unlawful to drive a horse on the streets faster than six miles an hour or [illegible]. This is not a question of inherent right or wrongfulness. The law does not [illegible] place of business but the law does [illegible] for committing perjury in a courtroom [illegible] government takes cognizance of it only as it affects society.

Another fallacy is the license no sanction fallacy. While licensing the sale of liquor seeks to restrict its sale it also sanctions its sale. Society has no right to sanction a wrong. Efforts to prohibit polygamy in Utah have proven a failure. Why not then license the evil, and for a certain sum in cash grant a man the license or in other words sanction him, in marrying as many women as he chooses to marry.

The next fallacy was the throwing away your vote fallacy. Those who favor prohibition are interested not in the success of candidates but in the success of the principle. Votes are the mightiest lever in lifting the cause forward. Votes are the practical side of it. Many good men whose sympathies are with prohibition say we are not prepared for it. Shall the cause die of dry rot waiting for the public mind to get ready for it? Continued and persistent advocacy [illegible] prohibition is the only way to prepare the public mind to receive it.

The next fallacy was the Moses-bill of divorcement fallacy. Some prominent clergymen in the [illegible] argue if we can't get prohibition let us have high license. Now Moses advanced the same argument when he granted the Jews divorces for other than scriptural causes. This was a makeshift and the law stood until Christ restored the old divine law. But Moses was at least consistent. He would not punish a man for taking advantage of the law which he created. The Rev Howard Crosby of New York a prominent advocate of high license is not so consistent. He tells a member of his church, who perhaps is a member of the legislature, "vote for high license," but he will excommunicate another member of his church, who takes advantage of the law which Mr Crosby would create, sells liquor under the license law which Dr Crosby approves and which he would help to pass.

No synopsis of the address can do justice to Mr Johnson and the above is only a few [illegible]. He leaves for home to-day going as far as The Dalles by boat.

Man's inhumanity to woman makes countless thousands mourn, would be an applicable rendering of Pope's line in view of the indignities she has suffered and pains undergone at the hands of unskillful physicians and quacks. Naturally modest she suffers on until forced to consult a physician regarding some female difficulty which she well knows is sapping her strength. All this embarrassment can be avoided and a cure effected by purchasing Dr Pierce's "Favorite Prescription" of your druggist and taking as directed. Price reduced to one dollar.

LOCAL AND GENERAL.

PROGRAMME FOR MEMORIAL DAY.

Following is the programme for to-day's exercises:

The various posts of the G. A. R. and other societies will assemble at 9:30 A. M. and at 10 sharp will take up the line of march from Second and Morrison across the bridge to Lone Fir cemetery. On arrival at the cemetery, the ritual of the order will be gone through with.

At 8 P. M. literary and musical exercises at the Tabernacle; oration by Capt. C. A. Woodruff, U. S. A.

MILITIA PARADE.

The First regiment, O. N. G., will assemble at 2 P. M., at the plaza block, opposite the court house, and will parade as follows: From the corner of Fourth and Salmon, out Salmon to Sixth, up Sixth to Columbia; down Columbia to First; down First to D; out D to Fourth; up Fourth to B; out B to Sixth; up Sixth to Taylor; down Taylor to Fifth; up Fifth to Madison, and down to the plaza.

THE TEMPERATURE YESTERDAY.—Mr. E. J. Glass, the signal observer here, reports that the mercury yesterday reached 90 degrees about 4 o'clock in the afternoon. This is the maximum, and has been reached only twice since the station was established here seventeen years ago, namely June 17, 1876, and July 6, 1885. While it will not do to dispute the government's figures, and 90 degrees will go on record, still it seems as if there must be some mistake. In the first place, it did not feel 90 degrees hot yesterday. The weather seemed only slightly warmer than the day before, when the mercury marked 86.2, and this was accounted for by the absence of a breeze. The thermometers at Wisdom's drug store, the gas company's office and Woodard, Clarke & Co.'s at 4 o'clock yesterday marked from 92 to 93½. While they are not perfect instruments, they are superior. Usually the government thermometer is more "conservative" than private instruments, indicating higher temperature during extreme cold and lower during extreme heat.

ROBBED A GRAVEYARD.—The man who would rob a cemetery of the flowers planted by sorrowing friends to decorate the last resting place of their loved ones, is about as contemptible a thief as can be imagined, and there are but few such in any land. There however appears to be one or more such in this neighborhood, as plants have been stolen from the River View cemetery within the past few days. The gardener and superintendent of the cemetery, Mr. Fred Lund, reports that a number of Gloire de Dijon roses, double white geraniums, double white petunias, dark and light blue heliotropes and variegated foliage plants are missing. As these are all choice plants it is supposed that the selection was made by some one who has a knowledge of the value of the flowers. Every effort will be made to detect the thief and it is to be hoped that he may be found out and punished in a way which will deter others from committing like vandalism.

BOUND OVER.—Says a Pendleton exchange of May 28, Frank Sinnard and George McDonald, who were brought up yesterday from Portland, charged with complicity in the robbery of George Darveau's saloon, had an examination before Justice Garret this morning, and were bound over in the sum of $600 each to appear before the next grand jury. The woman, Lizzie Sinnard, who was also arrested, was discharged as a defendant, but is held in the sum of $200 to appear and testify. According to the testimony, Sinnard, McDonald and another party put up the job and furnished McKay with the key. He went through the saloon and took the money, which was taken to the house of the woman and there in her presence, divided it into four piles, McDonald stating in answer to a question from McKay, that the fourth pile was for the party who furnished the key.

WONDERFUL GRAIN FIELDS.—Mr. J. C. Moreland returned Saturday from the Cœur d'Alene mines where he has been on business for several days. He came from Farmington landing to Farmington, thence to Moscow, thence to Lewiston, and thence to Dayton—the entire distance by team. The whole country is a wheat-field. "Never in all my life," said Mr. Moreland to an OREGONIAN reporter, "did I see such fine growing wheat. Not only the quality of the growing grain, but the magnitude of the wheat district astonished me. No one unless he goes over the country can form any idea of its grain producing qualities. I see that Mr. Potter, the vice president of the Union Pacific, is in town. Just tell him that he will be doing himself and the Inland Empire a wrong if he does not get away from the railroads and go over the country by team.

YOUNG CATFISH.—Mr. George F. White, postmaster at Silver Lake, Cowlitz county, W. T., writes to THE OREGONIAN to say that there are millions of young catfish in the lake which any one wishing can have by coming there and helping themselves, or by getting some one there to catch them and send them to the express office. Mr. White has sent out a great many, only charging for catching and putting them up and taking them to the express office, six miles distant. Parties should apply early, as the young fish go out into deep water as soon as they get of any size. The fish were planted in the lake some five years ago, and there are now millions of them there, some twelve to fourteen inches long.

HOODLUM YOUTH.—The pleasure of parties attending picnics is marred by a number of young hoodlums who go along without any one to look after them or without any lunch, and who make it the principal object of the trip to steal other people's lunch and destroy what they cannot eat. A lad named Wilson, another named Sangrave or some such name, are the ringleaders of this gang of hoodlums, who reside at the south end of the city. Parties getting up excursions should take some steps to prevent their patrons from being plundered by these young rascals, who are well known and who should not be permitted on board excursion boats.

THE RIVERS.—In the 24 hours ending at 8:30 yesterday morning the Snake at Riparia rose 18 inches and marked 18 feet above low water. The Columbia at Celilo rose 7 inches and marked 18 feet above low water. The Willamette at 8 o'clock last night marked 19 feet 7 inches, a rise of 10 inches in 24 hours. There is scarcely a doubt that the hot weather of the past three days has melted enough snow to raise the river two or three feet more, and it will reach Portland before the end of this week. Six feet more will bring the water up to Front street.

Look in Steinbach's corner window for bargains in underwear.

LAUNDRY BURNED.—An alarm was sounded from box 26 at 1:40 this morning for fire in the German laundry at the north end of North Ninth street, where it pitches off into Couch lake beyond I. The building, a small frame, was entirely destroyed. It was owned by August Bartel, a hard-working German, whose loss is about $1,000; insured for $500 in the Northwest Fire & Marine. A lot of linen belonging to the Metropolis and the Columbia hotels, was destroyed; also the linen of a few private families. There had been no fire about the premises since noon, and Mr. Bartel is inclined to think the burning of his place was the work of an incendiary.

MR. FISKE'S AFTERNOON LECTURE.—The arrangement made is that the first lecture of the afternoon course, on the story of the American revolution, will be given Tuesday at the High school hall at 3:30 P. M., entitled "The First Misunderstandings." The High school students and first grade grammar pupils are admitted free. For others, the course ticket of nine or ten lectures is $1, and single tickets 25 cents. Tickets obtainable at the hall. The dates of the remaining lectures will be arranged after Mr. Fiske's arrival.

CASINO OPERA HOUSE.—The production of "Fate" Saturday evening was an artistic success. Miss Imogene Eberle as Blanche Sterling showed ability of high order, and is entitled to much praise for fine work. Miss Sadie Stringham as Florence Grantly played the character with a finish that was pleasing. The remainder of the cast was above the average of companies that visit Portland. The play was well received and gave general satisfaction and deserves success.

BIG EXCURSION.—About 1150 people crowded aboard the new steel steamer Alaskan yesterday morning bound for the Cascades. The "wrist pin" became heated and the boat tied up at Cottonwood point to cool it off. She then steamed to Bonneville, reaching there 5 P. M. On her return she left at 7:45, and made a splendid run down, in three hours and twenty minutes running time, the wrist pin giving no further trouble. Half an hour was consumed in landing at Vancouver.

OPPOSITION ILLUMINATION.—A correspondent at Beaverton writes: In connection with the project for illuminating Mount Hood on the night of July 4, it should be remembered that it will be about the time of full moon, which will make an opposition illumination and destroy much of the effect. Could not the red fire display lay over for a week or two and have a little celebration all to itself?

RAILROAD COMMISSIONERS.—Yesterday Gen. A. Anderson, vice-president of the Northern Pacific, arrived here in company with Messrs. G. N. Cox, of Ellenville, New York, Byron L. Smith, of Chicago, and W. K. Carlisle, of Wichita, Kansas. These gentlemen are the government commissioners who examined the last thirty-four miles of the Cascade branch.

VANCOUVER EXCURSION TO-DAY.—Owing to the breaking of the crosshead of the steamer R. R. Thompson, the steamer Alaskan will make excursion trips to-day to Vancouver for the O. R. & N. company. She will leave Ash street wharf at 9:30 A. M. and 1:30 P. M. Returning from Vancouver at 4:30 and 7 P. M.

POSTOFFICE HOURS.—This being a legal holiday, the money order department at the postoffice will not be open to-day. The general delivery, carriers, registry and stamp windows will be open from 9 to 11 A. M. and from 2 to 3 P. M.

The greatest bargains in summer underwear can be secured at Steinbach's bonanza sale.

OFFICE OF J. C. CARSON,
STEAM SASH AND DOOR FACTORY,
PORTLAND, Or., May 16th 1887.

An order for the sash, doors, blinds, finishing material, etc., for six bay window cottages, such as are advertised by Hennelly, Flynn Co., has been received, and is now in course of delivery at Paradise Spring Farm in East Portland.
J. C. CARSON.

Extract from OREGONIAN, May 16.

PARADISE SPRING FARM.

WHAT AN "OREGONIAN" REPORTER LEARNED IN AN INTERVIEW ON SATURDAY.

"Can you afford, at the price asked per lot in your tract, to erect and give away six hard-finished houses as you advertise?" asked an OREGONIAN reporter as he entered the office of Hennelly, Flynn & Co., last Saturday afternoon.

"Yes, we can," replied Mr. Flynn, as he invited the inquiring pencil-pusher to take a chair; and, furthermore, we propose to do it. We awarded the contract yesterday afternoon to Mr. G. H. Wiser for the erection of six houses on the place at a stipulated cost of $1150 each, and they are to be ready for occupancy by the 15th of July. These houses are in Adams design ground floor cottages of the most approved style, and will contain bay window parlors, connected with sitting room by folding doors; also two large well-lighted bedrooms, bathroom, dining-room, kitchen, pantry, closets, hallway, etc. They are to be hard finished and painted throughout, and the last one will be ready for occupancy by the 15th day of July. In addition to the above, there are two very good houses now on the premises, which will also be given away with the lots, making eight houses in all, or two more than we have advertised."

"Is the land level?"

"Yes, every foot of it is level and in actual cultivation with fruits and berries, and if it were not so, we certainly would not furnish free carriages for its inspection. We have 170 lots in the tract, and we will agree to give $125 cash for the most undesirable lot in the whole number, either before or after the drawing, as the purchaser may elect."

"I thought you had 208 lots?"

"We supposed we had that number, but after a careful survey of the property under the supervision of D. W. Taylor, we found after dedicating streets that we had but 170, so the purchaser, instead of having six chances out of 208 of drawing a house with the lot, as advertised, will have eight chances out of 170."

"Then your profit in the matter will not be as large as you anticipated?"

"No, we do not expect to make a fortune out of the sale, but we intend to keep faith with the public, even if we do not make one dollar out of the investment. Right in this connection we might say that a great many stories have been advanced by malicious mossbacks, who decry everything that tends to leave them in the shade—where they belong—about the amount of money we make out of the enterprise. And for their especial benefit, as well as for the enlightenment of the public, we will state that we have in this matter assumed a $31,000 risk to make $4000, and in doing so, we have afforded men of moderate means a chance to acquire a home in a locality where it could never have been accomplished otherwise. We have 25 acres in this Paradise Spring Farm tract for which we have paid $[illegible] per acre, or a sum total of $[illegible] in addition to this we expend $[illegible] in the erection of six hard-finished houses, $250 for advertising, $[illegible] for attorneys fees, $200 for surveys and maps and $[illegible] for carriage hire, which makes a total of $[illegible]. Out of the sale of 170 lots at $200 each we will realize the sum of $34,000, which affords us a profit of $25 per lot or $4[illegible] more than our expenses, and we wait ten months for our money without interest."

"That appears to be a very candid statement."

"Well, that is the way we do business. We have nothing to conceal in the matter, and we might add that if any of our competitors can do any better by the public we would like to have them do it. Some indirect intimations have been made by wealthy irresponsible [illegible] real estate fakirs who don't own [illegible] foot of land, to the effect that land could be purchased in that vicinity for less than $[illegible] per acre, and for the benefit we will state right here that if they or any of their friends have any land in the same locality, either east or west of Paradise Spring Farm, fronting on Mount Tabor avenue, with advantages equal to ours, we will take every foot of it at the same price."

"That certainly ought to settle all disputes as to the value of the land," remarked the reporter as he prepared to take his departure.

"If you don't think it does just call on W. S. Ladd, who owns 400 acres adjoining our property, C. M. Wiberg, who owns an $8000 residence across the street, Wm. Beck, president of the Morrison Street Bridge Company, whose home adjoins Paradise Spring Farm, or in fact any one owning property fronting on Mount Tabor avenue, and if you can purchase land in that vicinity for less than $[illegible] an acre we will make it an object for you to do so."

"When is the award of houses to be made?"

"On the evening of the 15th of June, at the New Market theater, without fail. As some question has been raised about the intrinsic value of these lots, we will state right here that we will give each and every purchaser the sum of $[illegible] cash for the option of taking the lot he may secure, at any time within twelve months for the sum of $250. That you see we guarantee each purchaser a sum equal to about 15 per cent. on the investment, and that too on property which he has not yet paid for."

"That seems to be a pretty liberal offer to make," remarked the reporter, as the thought of investing suggested itself.

"Yes it may seem like an extravagant offer, but when you take into consideration the indisputable fact that Portland's present population will double within the next five years, and that the masses will be obliged to seek homes on the east side of the river, we think you will find it a very safe proposition, and we have no hesitancy in making it."

From the above statement it will be seen that our profit in the enterprise, while comparatively small, is of a collective rather than an individual nature, coming as it does from the many rather than the few. In other words, by disposing of 170 lots to one body, we are enabled, through the collective profit arising therefrom, to make terms to the many which we or no one else could offer to the individual. We sell these lots at $200 each, $50 of that sum to be paid at time of selection and the balance in monthly installments of $[illegible] each, without interest. We give each purchaser a good and sufficient bond for a deed in the sum of $[illegible] warranting the title to be perfect, and everything as represented, or the money will be refunded, on application at our office.

As only a few of these lots remain unsold, remittances will not be received after June 1st from the interior, except with the understanding that we reserve the right to return at sender's expense.

Parties in the interior desiring to invest in Paradise Spring Farm should notify us by mail or telegraph before sending money, in order to save unnecessary expense. All those who have spoken for lots in the above named tract will confer a favor by calling at once and acquainting us with their conclusion in the matter, as we wish to avoid any misunderstanding about priority applications.

CARRIAGES leave our office every day (Sundays included) at one and three o'clock, for the free inspection of the property. We ask no one to buy before satisfying themselves that Paradise Spring Farm addition is all that we claim for it.

NEWS OF THE NORTHWEST.

WASHINGTON TERRITORY.

Palouse now has a saloon for every 100 inhabitants.

White tailed deer are numerous in the swamps near Cheney.

Tramps are reported to abound in Palouse City and its vicinity.

Glanders in the worst form has appeared among horses in Columbia county.

Sheep shearing is in progress in the west end of the county, says a Colfax paper.

The old man Van Aspen, who escaped from the county jail at Colfax, Thursday, is still at large.

Whitman is by far the largest agricultural county in the territory, according to an exchange.

The county commissioners of Spokane made a showing of a balance in the county treasury of $20,726 46.

Immigrants are continually pouring into Whitman county. There is room for hundreds, says the *Commoner*.

According to the census now being taken, Pullman has a population of 225, Palouse City 371, and Farmington 400.

The Congregational society of Spokane are preparing to construct a neat little parsonage at a cost of from $800 to $1000.

Six flouring mills are located in Whitman county: One at Colfax, at Colton, Palouse City, Lincoln, Pine City and Lower Pine Creek.

Cheney *Sentinel:* U. S. Marshal Hamilton passed down the road Tuesday with three prisoners with sentences ranging from five months to five years.

Colfax paper: The county jail is crowded, but the June term of the district court will remove many, no doubt, to the new penitentiary at Walla Walla.

The land along Rock creek, one of the tributaries of the Palouse, is now settled up with a good, thrifty class of people. Some forty families reside in that locality at present.

Thursday evening, Washington lodge No. 19, I. O. O. F. of Walla Walla, elected officers as follows: J. L. Bowman, N. G.; Henry Scholl, V. G.; V. D Norman, R. S.; Jas. McAuliff, treas.

Dayton exchange: Henry Hunter was severely hurt last week by a colt which he was leading suddenly pulling back. His injuries were internal, but he is able to be about by the aid of a cane.

The Pataha City Coal and Mineral Mining Company has been organized at Pataha by H. B. Ferguson, H. L. Caples, D. H. Peyneer, Eugene Spedden, J. H. Wan and H. T. Spedden; capital stock $20,000, in 4000 shares of $5 each.

During the time the squirrel scalp bounty was in force, Whitman county issued receipts for about 466,000 of them, representing an expenditure, in round numbers, of $23,300. The squirrel population was diminished nearly half a million.

At convention of Columbia lodge, K. P. at Walla Walla, Friday evening, officers as follows were elected for the ensuing year: Walter McCalley, C. C.; A. P. Pearson, V. C.; W. D. Smith, prelate; Arthur Walker, M. at A.; F. J. Carlyle, trustee.

W. C. Geiger had a colt killed a few days ago between Quartz Creek and Box Canyon, below Sprenkle's mill by a cougar. The mother of the colt was also considerably scratched, but she escaped. Mr. Geiger reports tracks in that country to be very numerous.

Rattlesnakes, says a Goldendale exchange, in the Horse Shoe Bend country are coming out of their winter quarters in large numbers. It is very seldom that any one or anything is bitten by them, however, and little more is thought of them than a common water snake.

L. A. Hagan of the Big Bend country, his postoffice being Badger, Douglas county, was in town this week, says the Dayton *Chronicle*. He says there are many people going into that section, seeking homes, and that with railroad connection and cheap transportation, that county will boom.

The directors of school district No. 1, Colfax, have called a special election, to be held on Friday, June 10, 1887, between the hours of 1 and 5 P. M., to vote a special tax of $4000—$800 to pay the indebtedness of the district, $2000 to build an additional school house, and $1200 for tuition purposes.

Palouse *Gazette:* Some two weeks since two Chinamen were so badly injured at Hoodoo by a falling tree that they died in a few days. On the arrival of the pack train Wednesday from the camp we were informed that two more unfortunate Mongolians were crushed almost to death by a land slide.

The county commissioners of Spokane offer a bounty of 5 cents each for squirrel and gopher scalps. In some localities it is understood that these pests are doing considerable damage to grain and young orchards, and this action of the commissioners is timely and will be appreciated, remarks an exchange.

Goldendale paper: From a private letter to Hon. W. R. Dunbar from Mr. Peter Orteig, of Gilmer, we learn that the man who was drowned in the White Salmon river last Friday was a Swede by the name of Frank Halter. He had been working for R. D. Cameron, running logs down the river. The body has not been recovered.

At the meeting of the trustees of the Whitman county Agricultural and Fair Association, held Saturday, the following officers were elected: C. H. Warner, president; J. A. Perkins, vice president; A. M. Mecklem, secretary; A. Coolidge, treasurer. The contract for grading the track has been awarded and the work is now in progress.

Endicott correspondent of a Colfax paper: An effort has been made to build a Congregational church here. Rev. H. F. Cooleigh, general missionary, has been circulating a subscription paper, and succeeded in raising $350 of the $1100 required to erect a church to cost $1600, the balance to be given by the Congregational Building Association.

Cheney paper: A force of Northern Pacific carpenters commenced Monday on the erection of stock yards in Cheney. They will be located opposite the company's woodshed, and will be the largest on the Idaho division. It is proposed by the company to make this a feeding and watering point for all stock shipped both east and west, as it is the hay depot for the division.

Yakima paper: The vote of the electors of the school district upon the proposition to build a new school house to cost $10,000, and to levy a tax therefor, was cast last Saturday at the school house. Directors J. C. McCrimmon, J. H. Thomas and T. J. Redfield acting as judges, and Secretary Savage as clerk. There were eighty-one votes cast for the propositions and not one against them.

A few nights ago George Bland, of the Ahtanum, came near a serious catastrophe from a lamp which he left burning upon retiring. In the night he was awakened from the breaking of the chimney, when he found the lamp flame had extended to the wall of the room and set the paper on fire. He at once threw a blanket over the lamp and flames, smothering them and thus preventing the destruction of the house.

Monday, says the Goldendale *Sentinel*, when Mr. S. R. Darland, of Spring Creek, returned to the house from his work in the field, he found his wife hanging over the fence crying, and, upon going to her, discovered that she was completely out of her head, and did not know anything. A messenger was dispatched for Dr. Willard, but before he arrived, she had so far recovered as to know them, and at last accounts was doing quite well.

IDAHO.

The measles epidemic is declining at Grangeville.

There is twenty feet of snow in Dead Horse canyon.

The season of sheep shearing is progressing and wool laden wagons have been a common sight for several days, says a Lewiston exchange.

There is a general expectation that Lewiston will receive a good soaking when the snow water begins to come down next month, says an exchange.

Grangeville will be made a money order office of the second class on July 1. Postmaster Beck has forwarded the $12,000 bonds required to qualify.

Mrs. Vansise, with the assistance of a dog, succeeded in killing a large lynx up at the sawmill in the foothills last Sunday, says a Grangeville paper.

In Hailey, according to an exchange, there is more miscellaneous building going on at present than there has been at any time during the past three years.

Sunday a little child, of John Reisse, aged eighteen months, pulled a vessel of hot water from a bench and was fearfully scalded about the face and head.

Ben Prichard was kicked in the face by a fractious horse on the Centerville ranch Tuesday. One side of the nose is broken, but otherwise the result will not be serious.

Commencement exercises of the Lewis Collegiate institute at Lewiston, takes place the first week in June, and will last eight days. Several ministers from abroad have been invited to deliver the several addresses.

While some miners were grading a site for a new tunnel in the vicinity of Murray, on the Poorman mine, a tree just above fell, and in its descent struck Jim Hines, bruising him severely and breaking his collar bone.

William Murray, who is under indictment for attempting to murder his wife at Shoshone, made an attempt, or pretended attempt, to commit suicide by cutting his throat a few days since. The sheriff and his jailer think he is trying to play the insanity dodge.

A new baseball club, styled the Co. G Fourth Infantry Baseball Club, has been organized at the garrison, and their first match game occurred with the Boise City baseball club at the garrison grounds Sunday afternoon.

Lewiston *Teller:* A. D. Green, of Grangeville, has been appointed deputy U. S. marshal for Washington territory, under T. J. Hamilton. Mr. Green also holds his position as deputy under Marshal Baird, of Idaho territory.

Mr. G. W. Fulmer, merchant from Nampa, called Thursday, says a Boise paper. He reports forty teams at work grading the Branch railroad, and the town of Nampa begins to look like a business burg. Many town lots are changing hands in Nampa.

A Boise paper learns from parties out from Custer, Idaho, that a Chinawoman was found hanged to a joist in one of the Chinese cabins in that place Thursday. A Chinaman committed suicide at the same place, in the same manner, about a week ago.

A Wood river paper says that young calves and colts born on the range near the timber line in the west mountains, are being destroyed by the large grey timber wolves that come from their lair and carry them off. Large packs of them are seen, and they are very bold and determined. It is a species of wolf that is a stranger to this locality, and seems to have immigrated here last winter. A bounty should be offered for their destruction.

Thursday evening, W. T. Riley, deputy grand master workman for Idaho, assisted by John McFarlane, grand guide, installed the officers of Bullion lodge, A. O. U. W. of Hailey, for the ensuing term, as follows: P. M. W., John McFarlane; M. W., J. M. McPherson; F., W. H. Monahan; O., W. H. Morris; recorder, T. H. Quillen; receiver, Isaac Marks; financier, John Curran; guide, W. A. French; I. W., J. E. Schado. O. W., J. Holmes.

MONTANA.

An amateur minstrel company is being organized at Anaconda.

Thomas Jeffers, of the Teton, has been arrested on a charge of forging the names of school trustees to a school warrant.

The Livingston baseball club has challenged the Helena boys to play a match game for $200. The game was to have come off on the 30th.

Theo. Fisher of Sun River has mysteriously disappeared. He has been missing for over a month, and nothing is known of his whereabouts.

Articles of incorporation of the Montana & Cœur d'Alene Railroad Company were filed in the county clerk's office Tuesday. Capital stock, $1,000,000, in 10,000 shares of $100 each.

The annual meeting of the Eastern Montana woolgrowers was held at Miles City a few days ago. It was ascertained, among other things, that where sheep were cared for the past winter the losses did not exceed 25 per cent., but where left to rustle for themselves it was nearly 50 per cent.

High water is reported from all portions of the county, says the *Missoulian*. The river at this point raised three inches last night when it was already very full, and old-timers think it will be much higher than at present. J. Silverthorn, the Bitter Root freighter, reports the Lou Lou as very high, there being no bridge over the north fork of that creek.

THEN AND NOW.

Walla Walla Statesman.

Progress in railroading in this section is frequently illustrated by stories concerning Dr. Baker's "rawhide" railroad between this city and Wallula. Progress on the narrow gauge road in those days was exceedingly slow. The rails used to warp out of shape, and the train would have to halt frequently to enable the train men to reconstruct things before the cars could pass over. A good walker would sometimes be able to make the distance of thirty miles in less time than it would take the slow-going train to accomplish it. It is related that on one occasion a man traveling on foot from Wallula to Walla Walla overtook the train at a pond, where a car was derailed, and the crew was trying to get it back on the track. The pedestrian assisted them, and when the train was ready to move on the conductor asked him to ride. "No, thank you," he said, "I am ever so much obliged, but I'm in a hurry; and must push on to town."

UNITARIANS ORGANIZE.

Spokane paper, May 25.

The Unitarians have formed a permanent organization with very flattering prospects of a large membership. The trustees selected were C. W. Burrage, Mrs. A. J. Ross, F. E. Curtis, N. G. Willis, Eugene B. Cushing, Mrs. A. A. Warner, Dr. W. Lockhart, R. E. Clarke and G. M. Forster. At the permanent organization George M. Forster was made chairman; Eugene B. Cushing, secretary, and R. E. Clark, treasurer. A committee, consisting of A. J. Ross, A. L. Davis, Dr. W. Lockharte Frank Graves and R. E. Clark, was appointed to interview property owners and to ascertain the best location and prices that could be obtained for a site on which to erect a church structure, and the committee was further instructed to secure subscriptions for the building of said church edifice and for the purchase of said grounds. The ladies of the society met at the residence of Mrs. R. E. Clark and organized a ladies' society. The church is starting off under the most favorable circumstances and promises to be one of the most flourishing societies of the city.

TRAIN-WRECKERS IN JAIL.

Wood River Times.

Tuesday Louis Weinmann and James Riddle were brought to the county jail to be held to appear before the grand jury on a charge of "endangering life and property by placing an obstruction on the track of the Union Pacific Railway company, at a point about a mile and a quarter east of Glenn's Ferry, on or about the 19th of May, 1887." The men are accused of attempting to wreck the pay-car train by putting ties across the track. The train was stopped in time to avoid accident, and the men arrested close by. They were committed in default of $1000 bail each.

BODY FOUND.

Yakima Paper, May 26.

The body of Stephen Kelley, the farmer residing at Sunnyside who was drowned on the 2d inst., near Prosser, by his team dashing off a ferryboat, was found last Thursday by his wife, seven miles below Prosser, lodged on the shore in a bend. A cut was found upon the front part of his head, which is supposed to have been made by a kick or striking some object as he pitched out in front of the wagon and rendered him insensible. A coroner's inquest was held, and the jury returned a verdict of accidental death. Search had been kept up by the wife and friends since the accident, and on the occasion of finding the body those in search were about to turn back, but Mrs. Kelley insisted on going farther, which resulted in her discovery.

MURDEROUS CELESTIAL.

Boise City paper, May 28.

A Chinese cook, known as Tom, drew a butcher knife on Mrs. Milton Kelly yesterday while in the kitchen and threatened to kill her. George Lawton, who works in the printing office and had come up to the house for his dinner, was in the dining room and heard the Chinaman and thought something was wrong. He opened the kitchen door and stepped in, which surprised the Chinaman, who thought no man was about the house, and he desisted, but still threatened that he would kill Mrs. Kelly tomorrow. Mrs. Kelly sent for the sheriff, and Tim Driscoll, deputy sheriff, and Enos Walling came and took Tom off to jail.

SERIOUS ACCIDENT.

Boise Statesman, May 26.

Mr. Amos T. Bennett, foreman of Thomas Healey's saw mill, formerly the Rossi & Ridenbaugh mill, twenty miles north of Boise City, on Shaffer creek, while handling a log on Wednesday morning, in some way the log fell against him, breaking his right leg above and below the knee joint, and crushing in two ribs. A surgeon was sent for with all possible haste, and got there as soon as a team could take him, and set the broken bones and administered to his suffering, and he was removed to Boise City Thursday evening, arriving about 10 o'clock. The crushed side or ribs, which press inwardly against the heart, give him the most trouble. It is, however, thought that there is a chance for his recovery. Mr. Bennett has worked many years in this mill, and was half owner last year. He is a very careful man, and this is the first accident that ever befell him.

NOTES FROM NESTUCCA BAY.

NESTUCCA BAY, Tillamook county, May 26.

Badolett & Co., the enterprising salmon packers of Astoria, have commenced here in earnest. A solid company have also purchased land here on the bay, and are now clearing off and getting out timbers preparatory to putting up a first-class steam sawmill, to use up our fine fir, spruce and cedar timber for home consumption and export. So far so good. To complete our present needs it requires some one with sufficient means to construct a moderate-sized hotel for the accommodation of our numerous summer visitors, who seek our beautiful place to rest their weary souls and bodies, roam the green Nestucca hills, muse on their sins and gaze upon the sea.

Last Sunday Badollet & Co.'s steamer A. B. Field, with the large schooner scow Queen of the Bay in tow, came in over the bar with a cargo of materials for the cannery. The sea was restless and the bar rough, but the brave, stout little steamer "yanked" her heavy burden quickly and safely through the foaming waters to the haven. It was a surprise to us here to see them attempt a rough bar with such an outfit, and it shows that our entrance has few terrors for the skillful seaman. I think it is becoming apparent that we have the best entrance, for the amount of tide water, on the coast—for moderate-sized vessels, of course.

The cargo of the Queen of the Bay consisted of lumber, brick, retorts, etc., etc., and a fire and burglar proof money safe, made extra large so as to hold all the money they make here, and extra burglar-proof, on account of this locality. Badollet & Co. surely deserve to do well here, venturing as they are into hitherto untried waters. They have a cannery in Tillamook bay, and will, I have no doubt, find fully as many salmon here as there, for, besides the extensive run of fine fish at this place they will have Sand lake and Salmon river, the former five miles north and the latter eight miles south, to draw upon; so, with the present and prospective price of canned salmon, they have a future here, if they have no competition.

Yesterday (Wednesday,) the A. B. Field, towing the Queen of the Bay, passed out to sea over a smooth bar on their way to Astoria, to return as soon as possible with another cargo of materials for the cannery. The sawmill men will expect to get in their mill outfit by the next vessel, if possible; and soon the hum of business will resound along our shores, silent, hitherto, save for the ceaseless sounding of the sea. It is possible the future has many grand things in store for us. If we could see far enough ahead we might see the perpendicular coast railroad completed, and the terminus of a transcontinental line. As it is generally admitted that we don't know exactly where the center of the universe is, it is possible it may be here at Nestucca. Envious, jealous people may sneer if they will at the possibility of our ever amounting to much, we being at present so small, but you know, your excellency, we must all be little until we grow big

SEA BUBBLES.

THE PATRIOT DEAD.

The land's brave heroes, one by one,
  Drop from their post at noon of day,
Ere calls the lonely sunset gun
  Afar throughout the twilight gray;
With hope's fair dreams all set at naught,
Ere their brave souls their task had wrought,
And life her guerdons to them brought.

With the great eagles at the morn
  They sought the clouds, they cleft the sky,
They climbed the mountain's crest at dawn;
  But here at e'en alas! they lie!
No morrow's boom, or sunset gun,
Or tramp of legions hurrying on,
Shall wake the land where they have gone!

The noble dead, whose footsteps down
  The highways of the century
Ring on and ever through the past,
And through the future dim and vast,
With clouds portentous overcast.

Drift over them, O snows of time!
  With kingly ermine wrap them round;
The nation watches at their shrine,
  Their graves are consecrated ground.
When liberty's revellies wake,
Wherever freedom's tide-waves break,
Their land shall bless them for their sake!

THE EAST SIDE.

BOOKS PRESENTED TO THE Y. M. C. A.—G. A. R. SERVICES—A MAN BADLY HURT.

It has all along been the intention of the Y. M. C. A. in this city to establish a library in connection with their regular work. For this purpose an invitation has been extended to the public to contribute to the library in the shape of books. Mr. A. E. Ripley, of this city, has contributed eighteen volumes, as follows: Waverly novels, vol. I; Irish Melodies, T. Moore; Life of Washington, Bancroft; Omoo, H. Melville; Island of Cuba, Humboldt; Political Economy of Prophecy, Rev. Shimreal; Moore's works; Testimony of the Rocks, H. Mills; Waverly, vol. 2; Poems; Voyage Down the Amour; Collins; Naval History, Cooper; The Soul of Things, Denton; Songs of Labor, J. G. Whittier; Encyclopedia of Natural Science, F. Schoeler; Japan Expedition, Spaulding; Poems, Whittier; Spy of the Rebellion, Pinkerton; Museum of Antiquity, L. W. Yaggy. These volumes have been placed in the rooms of the association, where access to them can be had. It is to be hoped the work will continue until a good library shall have been collected.

Attendance upon the Salvation army barrack's meeting has decreased materially since the band has been exposed. It looks now as if some of the great stout fellows will have to go to work, as grass must be getting rather short.

The water covers nearly all the baseball ground at the Oaks. Yesterday a dozen or two youngsters made the enclosure a swimming pond.

Young people's meeting this evening at the M. E. church. Full attendance of young people is requested.

It only remains to complete the eastern approaches of N street roadway and that street will be open to Fourth. The track has been raised to the proper grade, plank will be laid between the rails and that portion will be completed. Work of extending Fourth from L to N will not long be delayed. This will require an elevated roadway on the west half of the street, this portion being over the slough. The other half will have to be graded and planked. With this completed travel over the bridge can go out N street and then deflect north on Fourth, or proceed to Fifth and then deflect either north or south.

Yesterday afternoon a man who gave his name as Leahy was driving along I street, and when at the corner of Sixth made a sharp turn. In so doing he was thrown from the vehicle. In falling he struck his face and head on the wheel and was knocked senseless. George Older, who lives on Sixth and I streets, saw the accident, and running across the street picked the man up and carried him to a house near. Here his face was bathed and restoratives applied. When consciousness was restored he gave his name and stated that he was connected with a brick yard out on the Sandy road. His horse ran up the street about a block and was stopped. The man seemed all right, and being placed in charge of his team drove off.

About 5 P. M. yesterday a fracas took place between a young man named Tennant, who works at Beck's livery stable, and Andy Powell. It seems that both were in the Vienna restaurant and Powell had some words with a waiter. Tennant, without apparently any provocation, struck Powell a heavy blow on the chin. At this juncture several others interfered and a free fight was engaged in. Four or five were engaged in the row and considerable excitement prevailed along the street.

Services appropriate to memorial day were held last night at the Episcopal church. The members of the G. A. R. in this city marched in a body to St. David's church, and there listened to an able sermon by Rev. John Sellwood, pastor.

A discourse in reply to the Adventists' theory of the sabbath as presented by Elder Farnsworth on the camp ground a few days ago, was delivered by Rev. I. D. Driver in the Methodist church. Authorities from antiquity were examined and quoted copiously and convincing arguments in support of the generally accepted Sabbath as the day of worship. The facts along that line were clearly presented and his logic powerful.

About 8 o'clock last night a band of Salvationists gathered on the railroad between Mall's stand and the feed store, and began singing. They were at once surrounded by a crowd under the lead of Fritz Kranz, who began singing in a loud tone, "John Brown's Body." Officer Atterberry arrested Kranz. The latter said he wanted to go into his saloon after something. He was given this permission, but as soon as he got into it closed the door and locked it upon the officer. However, he will be arrested to-day.

"MY FATHERLAND."

The following beautiful verses were written by the late Hon. Hugh Mair Thompson, who died recently in his adopted state, Iowa, where he was widely known as one of the pioneers and a prominent horticulturist. He was for some time president of the State Agricultural College, and a member during several years of the legislature. The poem was written shortly after the author's departure from his native country, and will strike a sympathetic chord in the heart of every exiled Scotchman who loves the old home of his fathers. The writer was an uncle of Rev. and Hon. John R. Thompson, of Vancouver, Washington territory.

MY FATHERLAND.

I see thee yet, my Fatherland,—
  Thy heath-clad mountains blue—
Thy rugged cliffs—thy gushing streams
  Come oft before my view.
Thy name is graven on my heart;
  Dear Caledon! I'm thine
By birth and every tender tie
  That son to sire can join.

I love thee yet, my Fatherland!
  "My heartstrings round thee cling,"
Though wand'ring in the wilderness,
  Thy praises still I'll sing.
I love thee for that olden time,
  Why thy bauld sons so true
Turned back the conquering Eagle of Rome,
  That o'er thy mountains flew.

Thou'rt dear to me, my Fatherland!
  "To thee remembrance clings;"
I love each strath and winding glen,
  Ilk bonny bird that sings;
I love each famed and hallowed spot,—
  And these are not a few.—
Where Wallace, Douglas, Bruce have fought
  Thine en'mies to subdue!

My heart is thine, my Fatherland!
  Though distant far I roam,
With filial love it turns to thee,
  My early, only home.
With filial love it turns to thee,
  For on thy fruitful breast
Dwell they who in life's helpless dawn
  My infant sorrows hushed.

I long to see thee, Fatherland,
  Like maiden for her love.
I long to kneel upon thy strand,
  And o'er thy mountains rove;
I long to feel a mother's kiss,
  And grasp a father's hand.
My heart yearns o'er each friend of youth,
  And thee, my Fatherland!

Wm. H. Macy died at New York 19th inst. For more than fifty years he had been connected with the Seaman's savings bank and prominent on Wall street. At different times he had been prominent with various rail and steam lines, insurance companies and charitable organizations.

A commission and produce merchant was to day called up before a justice of the peace on a charge of selling a roll of adulterated butter. Defendant is not a retailer and has not sold in small quantities. He was called away from business at an hour when it was most important he should be at the store, for the usual consignments of California produce were being delivered from the steamer. A jury was selected and the trial proceeded with after some wait for witnesses. The prosecuting attorney stated he expected to prove the dairy commissioner had been handed some butter bought of defendant. On being analyzed it was found, he said, to not contain a particle of genuine butter. The commissioner testified to receiving the piece of butter and taking it to a chemist. Complaining witness, it was then stated, had left the city two days ago on business and would be absent two weeks. The justice ordered a verdict of acquittal, which was signed. The jury and witnesses were paid and case dismissed. Had it gone on the result would have been the same, for the sample analyzed did not fall materially below pure butter, and was obtained from a retailer, not from the defendant. An officer is to be commended for active prosecution but this determined war against California butter and dealers in it is wrong. Chemical tests have time and again proven that received here to be pure. Our market is now flooded with Oregon-made butter, the great bulk of which is vastly inferior to any California received. Receipts are so large that they cannot be closely sold up here, hence recourse is had to shipping to San Francisco, where sales of the poorest are to others than actual consumers. This studied war upon the California product will likely lead to retaliation, when our producers will find they have virtually cut their own throats. Trade, even in butter, between the two states is desirable for it gives each a field for surplus product and is money made for producers in both states.

FREIGHT—No new business. The spot disposable list is five iron and one wood.

WHEAT—Advices about of the usual Saturday character from abroad. The Eastern markets closed rather weak. Local weather advanced the San Francisco option market. Here there is nothing done, while interior business is slow but at full prices.

WOOL—Quiet locally but firm. The movement is fair.

The Arlington *Times* of May 28 says. The warehouses have been the scene of considerable life during the past week, and even better prices have been paid for wool than were last week, one lot selling at 18¾. A lot of heavy wool (400 pounds to the bale) sold at Castle Rock for 15 cents. This is the best price paid for heavy wool so far. Ordinary wool now brings on an average from 16 to 17 cents in this city.

OATS—Offerings free and market well supplied. Quote about 55c. Advices easy.

POTATOES—New California, by steamer, sold at $1 90 per cental.

ONIONS—California selling at 1½c. No local product at hand.

FRUITS—Arrivals by steamer moved quickly. Cherries went at $1 25 per 10 pound box. Apricots sold at $1 25.

VEGETABLES—Cabbage 2¼c, asparagus $1 75 and tomatoes $2.

EGGS—Firm at 16c.

MARKETS BY TELEGRAPH.

NEW YORK STOCK MARKET.

NEW YORK, May 28.—Dealings in stocks to-day were even smaller and less interesting than those of last Saturday. The opening was moderately firm, most stocks showing insignificant advances over yesterday's final figures. The market settled to extreme dullness, which continued until the issue of the bank statement, shortly before noon, after which there was moderately active business until the close. The close was moderately active and firm to strong at about the best figures reached. Almost everything on the list was higher, although gains in no case exceed ⅞ per cent. Government s were dull and steady.

True, Though Remarkable.

[Dakota Bell.]

"Yes, I'm from Dakota," he said meekly, as he got into conversation with a man on an eastern train.

"Ah, is that so? I am thinking of going out there myself to invest in some farming land."

"We have some very fine land."

"So I understand—but are not some of the stories they tell of its fertility exaggerated?"

"Why, my friend, I am sorry to say some of them are downright untruths."

"That's what I thought. Now, what is the most remarkable instance of the fertility of Dakota soil which ever came under your observation?"

"Well, I believe the case of my pump might go at the head of the list."

"What was it?"

"I dug a well about forty feet deep the first season I was there and put down a wooden pump. It happened that it was made out of a small cottonwood log which was a little green and the soil at the bottom of that well, forty feet from the surface, was so fertile that that pump took root, and it also grew up and branched out, and now while my children play in a swing attached to one of the branches I pump water through the hole which still remains in the trunk."

"Do you tell that for the truth?"

"Why, certainly sir; I never tell anything but the truth."

"Are you engaged in farming or the real estate business?"

"Why, I'm engaged in neither, my friend, neither. I'm a preacher. I went out there as a missionary seven years ago, and though my work has been humble I trust it has had a beneficial influence on our people."

DR. JOHN BULL'S
SMITH'S TONIC SYRUP
FOR THE CURE OF
FEVER and AGUE
Or CHILLS and FEVER,
AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other.

BLACK WOLF

Or Black Leprosy, is a disease which is considered incurable, but it has yielded to the curative properties of SWIFT'S SPECIFIC—now known all over the world as S. S. S. Mrs Bailey, of West Somerville, Mass., near Boston, was attacked several years ago with this hideous black eruption, and was treated by the best medical talent, who could only say that the disease was a species of

LEPROSY

and consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her fingers festered and three or four nails dropped off at one time. Her limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 125 to 60 lbs. Perhaps some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or ointment were used per week in dressing her sores. Finally the physicians acknowledged their defeat by this Black Wolf, and commended the sufferer to her all-wise Creator.

Her husband hearing wonderful reports of the use of SWIFT'S SPECIFIC (S. S. S.), prevailed on her to try it as a last resort. She began its use under protest, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Bailey continued the S. S. S. until last February; every sore was healed, she discarded chair and crutches, and was for the first time in twelve years a well woman. Her husband, Mr. C. A. Bailey, is in business at 17½ Blackstone Street, Boston, and will take pleasure in giving the details of this wonderful cure. Send to us for Treatise on Blood and Skin Diseases, mailed free.

FITS!

When I say cure I do not mean merely to stop them for a time and then have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Post Office. It costs you nothing for a trial, and I will cure you. Address Dr. H. G. ROOT, 183 Pearl St., New York.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed, so strong is my faith in its efficacy that I will send TWO BOTTLES FREE, together with a VALUABLE TREATISE on this disease, to any sufferer. Give express & P. O. address. DR. T. A. SLOCUM, 181 Pearl St., N. Y.
